Hellmuth, Obata + Kassabaum (HOK), Inc. has earned the "Designing a Sustainable and Secure World" award from Global Green USA, the U.S. affiliate of Green Cross International, Mikhail Gorbachev's worldwide environmental organization. The former Russian president joined Global Green USA in honoring HOK at the third annual New York Gala. The firm's NIDUS Center for Scientific Enterprise in St. Louis recently was selected as one of the top 10 green projects of 2001 by the AIA's Committee on the Environment.

Gorbachev with HOK's William Odell, AIA.

AIA South Carolina recently elected the following members to its Board of Directors: **Suzanne R. Childs, AIA; Yuji Kishimoto, AIA; D. Wayne Rogers, AIA; R. Christian Schmitt, FAIA; and Edward T. Ziegler Jr., AIA.**

Dominick Tringali Associates Architects and Planners, Bloomfield Hills, Mich., was named one of Metropolitan Detroit's "101 Best and Brightest Companies to Work For." The award was presented by the Detroit Regional Chamber, Linwick and Associates, LLC, and Wayne State University's School of Business Administration. The program selects companies according to employee attraction, retention, and satisfaction.

American School & University honored **Einhorn Yaffee Prescott, Architecture & Engineering, P.C.**, for its design of renovations and additions to Cohoes Middle School, Cohoes, N.Y.

BROCKWAY

For 35 years of leadership and service to the organization and the planning profession, **Lee J. Brockway, AIA**, principal emeritus of Fanning/Howey Associates, Inc., Michigan City, Ind., received the first Lifetime Achievement Award presented by the

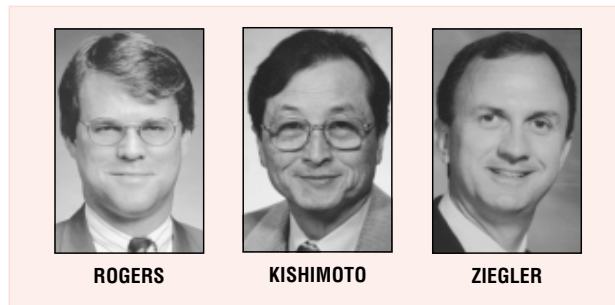

Midwest/Great Lakes Regional Chapter of the Council of Educational Facility Planners, International. Brockway has planned and designed more than 200 schools, many of which have earned national awards. He is past president of the Indiana Society of Architects, a member of the national AIA Research Council, and past chair of the national AIA Committee on Architecture for Education.

R. Randall Vosbeck, FAIA, received the 2001 Alumni Achievement Award from the College of Architecture and Landscape Architecture at the University of Minnesota.

JPI Design, an Ontario, Calif.-based company specializing in entertainment architecture and theme design, was selected to design a new Adventure World in Jeddah, Saudi Arabia. It is being touted as the most advanced theme park in the Middle East. The park will feature a "highly themed" experience punctuated by and tied together through an entranceway designed as a mirage, JPI's press release stated.

Alabang Town Center, Alabang, Philippines, designed by **Architecure International, Ltd.**, was an International Council of Shopping Centers Merit Award Winner at this year's convention and 25th International Design and Development Awards.

Jacobs/Wyper, Architects, celebrated the 20th anniversary of its firm at the Institute of Contemporary Art (ICA) at the University of Pennsylvania, which was one of the first major institutional projects by founders **Jamie Wypers, AIA**, and **Terry Jacobs, AIA**.

ROGERS

KISHIMOTO

ZIEGLER

The program chronicled Jacobs/Wyper's history, from its work on solar buildings through its expansion to the pharmaceutical and biotechnology industry, high-tech headquarters, and projects for colleges and universities.

Moody/Nolan Ltd., Inc. and **Fanning/Howey Associates, Inc.**, recently completed a two-day interactive architectural design session for an elementary school in the Columbus Public Schools system. During the charrette, students, parents, teachers, and administrators had the opportunity to offer ideas and concerns about the design of the new \$7.5 million facility. Public planning sessions are not unusual in the preliminary phases of school design.

The CPS charrette is unique because the architects gener-

OBITUARIES

Paul E. Dietrich, FAIA, died June 2 in Boston. He was 75.

In 1962, Dietrich helped found Cambridge Seven Associates and worked there until his death. The Cambridge, Mass., firm became known for its innovative work on civic buildings and large-scale projects, including the New England Aquarium in Boston; the U.S. Pavilion at Expo '67 in Montreal; the Basketball Hall of Fame in Springfield, Mass.; the New Bedford (Mass.) Whaling Museum; and the creation of the original master plan for the Massachusetts Bay Transportation Authority's station modernization.

Prior to settling in Cambridge, he traveled in Europe and worked in Zurich and Brussels. After returning to the states, he went to Santa Fe, where he worked with Alexander Girard, a designer and early mentor.

“Paul Dietrich was deeply committed to the idea of the architect as public servant. He truly believed in architecture both as a reflection of its society and a vehicle for social change,” according to a statement released by the firm. He was active in Cambridge’s design and planning community, and many other civic organizations in Massachusetts and across the country.

Born in Hammond, Ind., Dietrich attended DePauw University. After World War II, he graduated from the University of Nebraska and returned to Chicago to study at Lazlo Moholy-Nagy’s Institute of Design. He earned a MArch at Harvard’s Graduate School of Design. He has taught at Northeastern University and volunteered in the Boston Public Schools.

Aaron Green, FAIA, died June 5 in San Francisco. He was 84.

An associate of Frank Lloyd Wright in the 1940’s and ’50’s, Green frequently represented Wright on the West Coast. Green studied under Wright from 1940–1943 as a Taliesin fellow in Spring Green, Wis. and Scottsdale, Ariz.

According to an appreciation in the *New York Times*, Green carried out hundreds of commissions, including churches, low-rent housing, college buildings, and community centers. Among Green’s collaborations with Wright were the V. C. Morris Store in San Francisco, which was later restored by Green and renamed Folk Arts International and the Marin County Civic Center in San Rafael. Green talked about working with

Wright on the civic center design in his book, *An Architecture for Democracy*.

A bombardier in the Pacific theater, Green was born in Corinth, Miss., and was raised in Florence, Ala. He studied at the Chicago Academy of Fine Arts, Florence State College, and Cooper Union. This month Green was awarded the first Gold Medal of the Frank Lloyd Wright Foundation this month in recognition of a half-century of work in the San Francisco Bay Area, according to the *Times*.

Allen Frye, AIA Emeritus, died April 1. He was 71.

Frye was a founding member of the Jacksonville Chapter of AIA Florida. He graduated from the University of Florida and practiced architecture in the state from 1955–1998.

Born in Oklahoma City in 1929, his family moved frequently during his childhood while his father practiced architecture for the government as a civilian employee. In 1945 they settled in Jacksonville. After high school, Frye joined the Naval Reserve and in 1951 he was called into active duty and eventually joined Amphibious Construction Battalion One (the Seabees) in WESPAC as construction company commander, serving in Korea and San Diego. In 1955 he returned to Inactive Duty in the Naval Reserve and was employed by local architect Clyde E. Harris. In 1960 he opened his own practice in Orange Park and specialized in multifamily projects.

Allen was licensed to practice architecture in five southeastern states and was also a certified general contractor. ■
