## PIA Calendar Update

Following is a roundup of the AIA professional interest area conferences slated for this fall. To download a brochure for any of these conferences, visit [www.aia.org/pia](http://www.aia.org/pia).

### October 7-9

*Phoenix*

#### *Committee on Architecture for Justice*

The Committee on Architecture for Justice's "Fourth International Conference on Courthouse Design" will convene the justice community, architects, and planners from the U.S. and abroad to examine how justice will be delivered—and designed—in the 21st century. Contact Anieca Lord, [alord@aia.org](mailto:alord@aia.org) or 202-626-7487.

### October 10-13

*Chicago*

#### *Academy of Architecture for Health*

Join the Academy of Architecture for Health at their annual fall conference, where the topic of discussion will be "Architecture of the Heart: Current Trends in Cardiac Care Design." Contact Jennifer Barry, [jbarry@aia.org](mailto:jbarry@aia.org) or 202-626-7366.

### October 11-14

*Lincoln, Neb.*

#### *Committee on Design*

The Design Committee will be exploring the ins and outs of design in Nebraska's

two major cities, Lincoln and Omaha, in their "Nebraska: Architecture in the Heartland" conference. Contact Kathleen Lane, [klane@aia.org](mailto:klane@aia.org) or 202-626-7468.

### October 19-21

*Columbus, Ind.*

#### *Interfaith Forum on Religion, Art and Architecture*

In the "Architecture in Support of Technology" conference, The Interfaith Forum on Religion, Art and Architecture will explore the influence of belief and theology on the design of contemporary worship spaces. For more information, contact Kristi Graves, [kgraves@aia.org](mailto:kgraves@aia.org) or 202-626-7544.

### October 31-November 3

*New York City*

#### *Committee on Architecture for Education and Committee on the Environment*

The Committee on Architecture for Education and Committee on the Environment team up to present "Learning Environments that Sustain: A Sustainable Future." The group will focus on three components of sustainable educational environments: pedagogy (learning trends and the academics), social (architectural attributes that encourage interaction), and technical (building techniques and FF&E). Contact Anieca Lord, [alord@aia.org](mailto:alord@aia.org) or 202-626-7487. ■
